Why Choose TRANSLUCID?

When the stakes are high - in a courtroom, a boardroom, or across borders - you need more than a translator. You need a trusted language partner with proven credentials, deep specialisation, and an uncompromising commitment to accuracy.

Court-Qualified Linguists

Our translators and interpreters are not merely certified - many hold court-qualification status, making their work legally defensible and admissible in formal proceedings.

29+ Languages Covered

From English and Afrikaans to Zulu, Arabic, French, Portuguese, Mandarin, and beyond - we cover the languages your clients, partners, and communities actually speak.

Legal Industry Specialisation

We understand legal terminology, courtroom protocols, and evidentiary standards. Our team doesn't just translate words - they translate meaning within legal context.

Sworn Certification Capability

TRANSLUCID offers sworn translations executed under oath - a critical requirement for immigration, notarial, and official government submissions.

AI + Human Hybrid Workflows

We integrate automation and generative AI tools to support - not replace human expertise. The result: faster turnaround, greater consistency, and lower cost without compromising standards.

Proven Track Record Since 2022

From the Social Housing Regulatory Authority to Ministerial Forums, we have delivered at the highest levels of government and corporate engagement.

“Accuracy is not a bonus feature. It is the foundation of everything we do.” - Christopher Tsuke, Founder & Director
